

# BMP™71 Label Printer

**THOUSANDS OF APPLICATIONS.  
HUNDREDS OF LABELS.  
ONE LABEL PRINTER.**

## Safety and Facility ID

## Durasleeve™ Labels

## Die Cut Labels

## Control Panel Labels

## Pipe Markers

## Glow In The Dark Tape

## Introducing the BMP™71 Label Printer – the one way to faster, easier label printing.

The BMP™71 combines the best features and functionalities of Brady's portable label printers into one easy-to-use, top-of-the-line solution. All your major wire & cable, safety & facility and asset & component identification needs are satisfied in one printer.

## One Source for Label Materials

Choose from 30 different material types and over 400 label parts — all designed with Brady's industrial strength durability. Add all of the materials from the TLS 2200® Thermal Transfer Printer and the HandiMark® Portable Label Maker and your label options are endless!

## Saves Time with Foolproof Label Design & High Speed Print

At 38mm per second, the BMP™71 printer has the fastest print speed on the portable printer market. But that's not all. With built-in design wizards for electrical, voice / datacomm and general id, material recognition technology and storage space for over 100,000 label files, this printer can cut label design time in half.

## Cuts Material Waste – Preview Labels As You Create Them!

With a large, full colour graphical display, the BMP™71 printer shows you exactly what your label will look like as you're creating it — so there's no guesswork or need for "test labels".

**For demo videos and information on label and ribbon materials, visit [www.bradyid.com.au/bmp71](http://www.bradyid.com.au/bmp71)**

# BMP™ 71 LABEL PRINTER
