# SphereFlash® AI Colony Counting Software

## Artificial Intelligence-Powered software

Pharmaceutical | Food & Beverage | Environment | Cosmetics

### Product overview

SphereFlash® AI Colony Counting Software is designed to achieve **colony counts** with exceptional accuracy, requiring only a **single click**. Simply upload the picture of the plate **captured by your colony counter** and let it perform the counting.

### Main benefits

#### No adjustments needed

Image upload and colony count in just 2 seconds.

#### Handle challenging plates

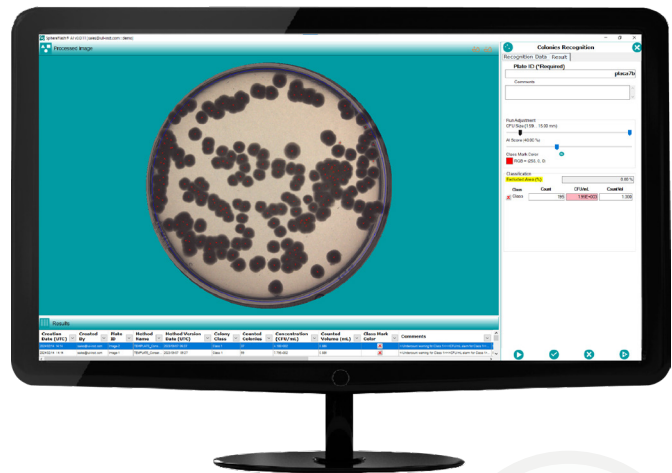

Thanks to its advanced Artificial Intelligence, SphereFlash® AI ensures that every count is conducted with the highest level of accuracy, providing reliable data for your projects.

#### Universal Compatibility

Process the Petri dish picture regardless of the colony counter it's been captured with. The usage of reflection-free images captured by SphereFlash® Colony Counter is highly recommended.

#### Audit trail & User management

The software complies with 21 CFR Part 11. Its security-relevant chronological set of records provides documentary evidence of the sequence of activities that have affected a specific operation provided.

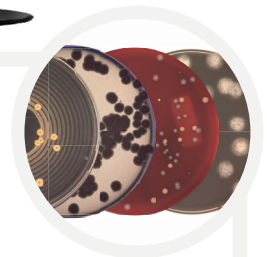

#### Free trial

Experience AI-powered colony counting by activating your 100-image free trial.

#### OEM project

IUL develops your custom-made solution. Tell us about your OEM project!
