

Accelerating Biopharmaceutical Innovation

Supporting accuracy,
consistency and efficiency
across the biopharma workflow.

Ingeniously Practical

The Biopharmaceutical Workflow

From discovery to manufacturing, **OHAUS** solutions support critical processes with precision and reliability.

02

UPSTREAM PROCESSING

Cell culture, buffers and media preparation

04

QUALITY CONTROL

Verify quality, consistency and compliance

01

RESEARCH & DEVELOPMENT

Discover, analyze and develop new biologic therapies

03

DOWNSTREAM PROCESSING

Sample separation, purification and preparation

05

MANUFACTURING SUPPORT

Support scale-up, batch preparation and production operations

OHAUS is your trusted partner for every step of the **biopharmaceutical journey**.

RESEARCH AND DEVELOPMENT

Accurate Weighing

Precision weighing is the foundation of reproducible and reliable results.

APPLICATIONS

- Buffer formulation
- Media preparation
- Reagent formulation
- Standards preparation
- API and raw material weighing

OHAUS SOLUTIONS

Analytical & Precision Balances

Explorer™
Series

Adventurer™
Series

Pioneer™
Series

Portable Balances

SCOUT™ SERIES

NAVIGATOR™ SERIES

High Accuracy
Reliable Results

GLP / GMP
Compliance

Data Integrity &
Connectivity

User
management

UPSTREAM PROCESSING

Cell Culture

Consistent temperature and shaking performance for optimal cell growth and bioprocess results.

APPLICATIONS

- Mammalian cell culture
- Suspension culture
- Microbial culture
- Bioprocess optimization
- Fermentation studies
- Cell & Gene Therapy Research

OHAUS SOLUTIONS

ENDEAVOR™ Series
Open Air Shakers

Aquasearcher Series
PH & Conductivity Meters

Genie™ Series
Multi Mode Shaker

Precise
Temperature
Control

Uniform
Mixing
& Shaking

Reliable &
Continuous
Operation

Scalable for
Every
Application

DOWNSTREAM PROCESSING

Sample Separation

Efficient Sample Separation for Reliable
Downstream Analysis

APPLICATIONS

- Cell harvesting
- Protein purification workflows
- Clarification of lysates
- Sample concentration
- Molecular biology workflows

OHAUS SOLUTIONS

Centrifuges

Frontier™ 5000 Series

Vortex GENIE disruptor

Genie™ Series

Consistent sample
preparation

Improved
reproducibility

Protection of sensitive
biological samples

Flexible solutions for
multiple applications

QUALITY CONTROL

Analytical Testing

Ensure product quality, process consistency and regulatory compliance throughout the biopharmaceutical lifecycle.

APPLICATIONS

- Raw material verification
- Moisture determination
- In-process monitoring
- Final product verification
- Method development

OHAUS SOLUTIONS

PH & Conductivity Meters

Aquasearcher Series

Moisture Analyzers

MB Series

Precision Balances

Explorer™ Series

Data Integrity
& Connectivity

Reliable
measurements

Regulatory
readiness

Improved laboratory
productivity

Complete Biopharma Portfolio

A comprehensive range of laboratory equipment to support your critical workflows.

APPLICATION	 Balances	 Moisture Analysts	 Shakers	 Vortex Mixer	 Centrifuges	 water analysis meters	 Overhead Stirrer & Hotplate Stirrer	 Industrial Weighing

 Production Support	✓	✓						✓

Precise

For accurate results

Productive

For efficient workflows

Dependable

For your peace of mind

Versatile

For diverse applications

IDEAL FOR:

BIOTECH STARTUPS

Empower innovation with reliable and affordable solutions.

RESEARCH INSTITUTES

Support cutting-edge research with precise and dependable equipment.

PHARMACEUTICAL MANUFACTURERS

Ensure quality and compliance across every stage of development.

CROs

Streamline studies with robust and compliant laboratory solutions.

CDMOs

Scale with confidence using equipment built for consistency and performance.

From sample to success — we provide the tools you need to advance science and improve lives.

**Your Work.
Our Solutions.**

Why Choose OHAUS?

Trusted by laboratories around the world.

ACCURACY

High precision instruments deliver dependable results.

COMPLIANCE

Support GLP, GMP and regulatory requirements with ease.

RELIABLE PERFORMANCE

Engineered for durability and consistent performance.

GLOBAL SUPPORT

Worldwide service network you can rely on.

SMART CONNECTIVITY

Seamless data management and traceability.
